# “The purpose of fun is to have some!”

Founded in 2008 by partners/owners Sean and Lisa Higgins

## Our Story

Sean and Lisa Higgins came to the realization they were not following their dreams and their careers were not driven by passion or fun. That's when they decided to create a business that would share their love for their hometown and home state. Their goal was a business that would expose the community and visitors to the beauty of the bluegrass state.
